

June 28, 2011

My name is [REDACTED], I live  
and own [REDACTED] at the address  
of [REDACTED]. My  
land joins Spectra Energy. I am  
very concerned about the chemicals  
used at the United Salt Corp.

I would like to know if my property  
is receiving these chemicals that are  
dangerous. I have filled out papers  
to find out if there is lines run  
on my property. I never received  
anything back from Spectra Energy Co.

I have received a letter from the  
United States Environmental Protection  
Agency about the meeting coming up  
and I would like to attend this  
meeting on July 20th of this year.

Further more the tractor trailers  
running up and down my street to  
the Salt Company have caused  
many damages to my home. They  
have jarred my walls in front of my  
home, caused the cabinets to come  
loose from my walls and my  
chimney is separating and cracking.

due from the vibration from these tractor trailers, Also my windows are cracked and loose from my home.

I would really appreciate attending this meeting to find out what they have to say about these issues and more.

Thank you,

If to contact me due to these matters or the up coming meeting in July Please call me @ [REDACTED]
